

# NEW YORK

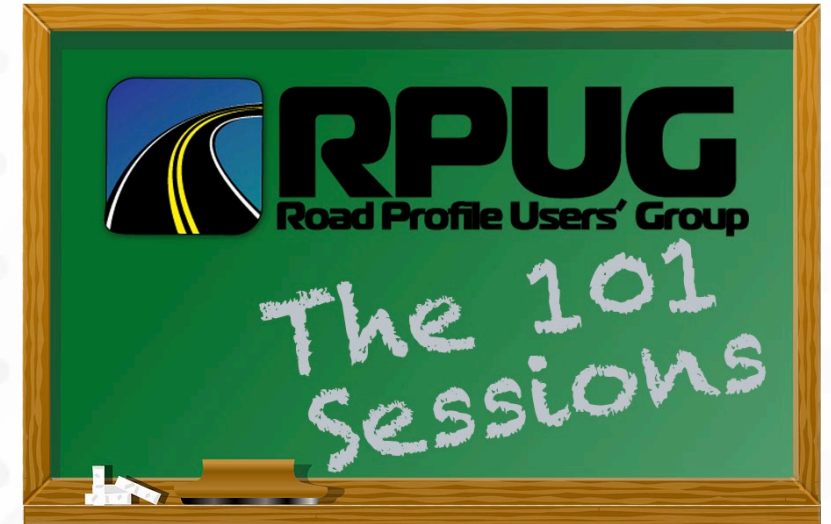

THE RACE TO BETTER DATA  
APRIL 25TH-28TH, SARATOGA SPRINGS

Welcome To Saratoga!

# General Meeting Information

- First Face-To-Face Meeting in Over 2 years! 2020 was supposed to be here in NY.
- 2020 meeting was replaced with a virtual event and last year's meeting was postponed until this week to best coordinate with FHWA travel approval needs.
- 2020 event also included a very popular "101 Sessions" series of presentations

- All recorded 101 classes and 2020 content are still online at the [RPUG website](https://www.rpug.org/)

# General Meeting Information

- The success of the virtual sessions and online webinars have showed us there is desire for online content and more are likely to occur, even in years when we meet face-to-face.
- **For 2022, we're excited to announce that this year's standalone RPUG meeting set a record for registered attendees (180) and exhibitors (21)**
- The RPUG steering committee consists of 20+ folks and is aided (heavily) by Patte Hahn and the National Center for Pavement Preservation. It's a lot of work and mostly voluntary!
- For 2022, we've introduced the "RPUG Navigator" program designed to help any attendee get information and an experienced "tour guide" to help them make the most of their time while they're here. Many folks registered before the meeting, but Navigators are here all week to help (just look for the sticker on their badge).

# 2022 Meeting Exhibitors (21)

- Agile Assets (a Trimble Company)
- Ames Engineering
- ARRB Systems
- Dynatest U.S. Inc.
- EyeVi Technologies
- Fugro
- International Cybernetics Company

08:00 AM – 12:00 PM	TPF-5(345/463) Friction Pooled Fund Meeting
01:00 PM – 05:00 PM	ProVAL Workshop

# Business Meeting

- Scheduled for Wednesday from 11:00– 12:00 (right before lunch)
- As the first in person meeting in 2+ years, there's a lot to cover!
- Every RPUG attendee gets a vote for any decisions we make.
- To expedite the process, we included some of the voting items in the Welcome Packet
- Specifically, the proposed bylaws changes are found in your folder so that you can read them before you vote. The primary change is the makeup of the steering committee membership as an effort to add some new faces to the folks that plan the meeting. Please look these over before our Wednesday business meeting.
- The other major topic of interest that requires a vote is the timing of this meeting each year. Traditionally, this is a fall meeting. There's been an overwhelming approval of the meeting being held in Spring this year, so we'll need to consider the best timeframe for this meeting going forward.

# Presentation Reminders

- Presentations are meant to be 20 minutes long (or close to it)
- Moderators, please try to keep them on task and on schedule
- One structure change for 2022: All questions are held until the end of a session
  - All presenters need to be ready to answer questions at the end
  - All attendees need to hold their questions until the designated Q & A time
  - We'll try to get the microphones quickly to those folks who have questions
- Q & A time is budgeted at 15 minutes. Any unused time will be added to break periods

# Today's Keynote Speaker

- Please welcome Russ Theilke of NYSDOT

**Department of  
Transportation**
